

YOUR NEW "CAREER" OUTLOOK

In recent years, the medical support profession has become indispensable to the health care field. Not only have physicians become more reliant on Medical Assistants, Medical Administrative Assistants, Medical Billers, Ultrasound technicians and Echocardiograph Technicians, but their services are also being requested by hospitals, clinics and nursing homes, as well as medical supply businesses, home health agencies, insurance companies and pharmaceutical companies. Medical support staff has become an important part of the health care team and their responsibilities continue to expand as the need for their services grows. The objective of CIT's Medical and Dental support programs are to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions in the medical and dental industry.

WE ARE COMMITED TO SUCCESS

CIT provides the opportunity for all students to retake classes within the course, FREE OF CHARGE, in the event that a student does not successfully pass their class, on a space available basis, as many times as needed..

APPROVALS

We are approved by the BPPVE (Bureau for Private Postsecondary and Vocational Education), Veterans Administration, I-20 Students Visa, WIA (I-Train, ETPL) and Vocational Rehabilitation for State of California and for Private Sector.

JOB PLACEMENT ASSISTANCE

The Placement Department of the College of Information Technology delivers placement assistant services based on the principle of tailoring a job search strategy at the time the individual becomes a student at this College

The focus is to develop the student's skills in a gradual mode by offering employment related to the career program goals they have set for themselves. When the student is in the last 45 days prior to finish the program the Job Search Campaign becomes more intense.

OUR COMMITMENT

Our strength is our commitment to customer satisfaction, hands-on training and instructors with years of real-world experience. Our faculty brings quality instruction into the classroom that cannot be found in textbooks.

The class sizes allow our instructors to give extra attention to the individual needs of each student. With hands-on experience, students develop skills needed to succeed in our programs as well as in the workforce.

INSTRUCTORS ARE INDUSTRY PROS

All Instructors are industry certified as well as certified by the State of California.

Our Instructors possess a combination of industry recognized certifications, plus many years of teaching experience and practical application of the class subject matter.

STUDENT SERVICES

College of Information Technology strives to support our students' educational pursuits by providing various resources.

- Medical and computer equipment availability.
- Labs available during regular Business hours.
- Externships, providing "real world" experience.
- Assistance in the preparation of resumes.
