

...Advance Developer: Lead the Way with MCSD

Microsoft Certified Solution Developer (MCSD) for Microsoft .NET candidates are required to pass four core exams and one elective exam. The core exams provide a valid and reliable measure of technical proficiency and expertise in developing and maintaining enterprise applications that are based on Microsoft development tools, technologies, and platforms. The elective exam provides proof of expertise with a specific Microsoft server product.

MCSD .NET 2003 / 2005

MCSD .NET 2003

Core Requirement

Web Application with VB .Net & VS .Net

MCSD .Net 2003 70-305

Develop and implement Web-based applications with Web forms, ASP.NET, and the Microsoft .NET Framework.

Window-based Application with VB .Net & VS .Net

MCSD .Net 2003 70-306

Develop and implement Windows-based applications by using Windows Forms and the Microsoft .NET Framework.

XML Web Service with VB .Net & .Net Framework

MCSD .Net 2003 70-310

Develop and implement middle-tier components, server components, and XML Web services by using Visual Studio .NET and the Microsoft .NET Framework.

.Net Solution Architectures

MCSD .Net 2003 70-300

Analyze requirements and define Microsoft .NET solution architectures.

Elective

Designing and Implementing Databases with SQL 2000

MCSD .Net 2003 70-229

Design and implement database solutions by using Microsoft SQL Server 2000 Enterprise Edition

The MCSD Credential is one of the most widely recognized Technical Certifications in the Industry. By earning the premier MCSD for Microsoft .NET credential, individuals demonstrate that they have the skills necessary to lead organizations in the successful Design, Implementation and Administration of Business Solutions with Microsoft Products.

The MCSD job role includes analyzing business and technical requirements, and defining the solution architecture, as well as implementing the requirements and building, deploying, and maintaining the solution. We recommend candidates have at least two years of experience as a lead developer.

The MCSD .Net 2003 certification is appropriate for:

Web Developer	Software Developer
Software Engineer	Web Designer
Application Analysts	Software Application Developers
Technical Consultants	Software Analysts

* Optional additional module at additional cost.
